Los Angeles, CA | (818) 355-3683 | kleadmdev@gmail.com [LinkedIn](#) | [Portfolio](#) | [Blog](#)

PROFESSIONAL SUMMARY

Full-Stack Engineer with 5 years of experience specializing in building scalable, high-conversion web applications, design systems, and automated data lifecycles that eliminate manual workflow friction. Expert in React, TypeScript, and Node.js, with a proven track record of architecting real-time synchronization systems and migrating high-traffic properties to performant headless architectures. Adept at leveraging AI-assisted development tools to accelerate delivery velocity by 50% while configuring robust TypeScript infrastructure, testing pipelines, and WCAG-compliant user interfaces for enterprise environments.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), Python, PHP, HTML5, CSS/SCSS, Tailwind
- **Frameworks/Libraries/CMS:** React, Next.js, Gatsby, Node.js, Vite, ESLint, Prettier, WordPress
- **Testing & Observability:** Playwright, Core Web Vitals, Real User Monitoring (RUM), New Relic
- **Data & AI:** GenAI Integration (Middleware), MCP, MongoDB, PostgreSQL, MySQL, GraphQL
- **Cloud & DevOps:** AWS (S3, Lambda), Docker, CI/CD Pipelines, GitLab CI, Git, JIRA, Agile

PROFESSIONAL EXPERIENCE

Software Developer | Finance of America | Sep 2025 – Present

- **Streamline database synchronization** for 5+ enterprise properties, maintaining 100% data integrity across multi-tenant environments through optimized update cycles.
- **Architect high-conversion user flows** and lead capture systems integrated with Salesforce and Genesys, directly facilitating seamless data ingestion and sales routing.
- **Engineer reusable UI components** and scalable design systems that improved page performance and maintained strict WCAG 2.1 compliance and accessibility standards.
- **Accelerate feature delivery velocity** in an Agile environment by configuring ESLint/Prettier infrastructure and iterating on Git-based workflows and CI/CD deployment pipelines to drastically reduce release friction.

Web Developer | Experian | Nov 2023 – Sep 2025

- **Modernized data architecture** by deploying custom Node.js APIs to bridge BI platforms with headless CMS, transitioning data from manual quarterly cycles to real-time synchronization with 100% data freshness.
- **Built high-performance WebGL data visualizations** for AI products, programmatically rendering localized engagement metrics for 1,000+ global coordinates.
- **Led the migration of high-traffic blog properties** to a headless CMS stack (React, Gatsby, GraphQL), resulting in a 20% reduction in load times and highly optimized Core Web Vitals.
- **Served as primary technical liaison** for Product and SEO teams, translating complex engineering blockers into actionable technical specifications, documentation, and scalable code design.
- **Integrated scalable Node.js APIs** with third-party engagement widgets to enhance frontend functionality and SEO data exposure across distributed systems.

Technical Marketing Coordinator | Experian | Nov 2021 – Nov 2023

- **Automated content workflows** by building a custom Node.js application integrated with Google APIs, reducing manual effort by 10x and accelerating delivery by 50%.
- **Engineered internal SEO audit tools** using Python and Node.js to automate site-wide integrity checks, reducing broken links by 30% and duplicate content by 25%.
- **Collaborated with E-Commerce and Technical SEO teams** to ensure proper instrumentation for tracking and performance monitoring using custom logging and dashboards.

EDUCATION

University of California, Los Angeles Bachelor's in Economics | Summa Cum Laude
